Profile:

I am a passionate and multi talented C# Developer with nearly 2 year experience producing code to a consistently high standard. I am constantly honing my skills within the software development arena and applying my knowledge to implement a range of practical solutions with the utmost efficiency. I possess a proven track record of developing applications and I am seeking a role that will utilise and expand these skills.

Skills Summary:

- C#, JAVA, Mobile Development
- HTML, CSS
- ASP.NET MVC, ASP, LINQ
- SQL Server 2008/2012
- Javascript, JQuery and AJAX
- XML and Web Services

Education:

- **2010 – 2013 Gurukul Kangri University**
Master Degree: Masters of Computer Science.
- **2007 – 2010 D.A.V College**
Degree: Bachelors of Computer Science

Employment History:

Junior Software Engineer

November 2013 - Present

Junglelee Games is a leading game development company that provides highly entertaining gaming platforms to the community of online players. It offers a variety of popular games like Rummy, Texas Holdem Poker, Howzat Cricket, Teen Patti and other social games.

- Developed a web application using C# that monitors ongoing casino operations.
- Created an admin website for firm's key product rummy that tracks company's current revenue which in turns helped the team to analyze cash inflows and user base.

- Worked with a team of 4 employees to create a database synchronization tool that synchronizes data between a master and slave database.
- Currently working to create a rich cross platform mobile application to have live feeds and alerts like payment failures on the go.
- Developed lots of tools to automate the recurring work.
- Accounted for increase in company's gross revenue four times.

Jr. Software Developer

January 2013 – October 2013
